

# Vertical Rack

**A cost effective way of storing all those long and awkward items.**

Our vertical racking is derived from our Heavy Duty Midispan system. The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact the sales office.

- ★ Great value for money
- ★ Store all your long awkward items
- ★ Quickly gets your storage organized
- ★ Simple to build and reconfigure
- ★ Fully adjustable hoop dividers
- ★ Starter and extension bay system
- ★ Can be secured to the floor
